

# LAST BREATH

Lancey Foux

For my last breath I'ma give out the cold (For my last breath)  
For my last breath I'ma let you know (For my dog)  
For my last breath I'ma give out the cold (You know how this shit goes)  
For my last breath I'ma give out the cold  
For my last breath I'ma let you know  
For my last breath I'ma touch your soul (Dark)  
(Aye, turn me up, Bally)  
(Ha, ha)

For my last breath I'ma give out the cold  
For my last breath I'ma let you know  
For my last breath I'ma give out the cold (Ha)

Yeah, first things first you'll keep your soul  
Huh, these niggas gon try, you never fold  
Your women gon try, you never fold  
Killin' the ego, catch a bird  
See how the tongue powerful, mind your words  
That's why we talkin' 'bout money, that's how we get some more  
That's why we talkin' 'bout power, get my respect by force  
In the back of the Rolls Royce Cullinan, used to have crack in my jaw  
Lemme show you real quick, lemme break it down, lemme put it like this  
You playin' a game called life, and you just can't lose but you just can't win  
You got to pay the price if you're takin' a risk, don't be out in a whimp  
Shit, gonna get deep in this life, think fast, sink or swim  
Shit, gonna get deep, mad man, shit get scary  
One day it's gonna hit and you gonna sit and think, nobody cares  
You won't know what alone is 'til you lose a parent  
So I get in my zone, I face my fears  
Even if you're broke, you got to pay attention  
Got to hear what they say but listen to what they don't mention  
Times get hard, say you want to go to a different dimension  
Life gettin' hard, say you want to [?]  
She prayin' from far, once you get close, you gon watch her intention  
Watch how they friend you, watch how you move, they might use it against you  
I'ma tell you right now my g, the devil gon tempt you  
Remember your purpose, tell to the gang forget you  
You gotta get mentally strong, you need to take some hits  
Life like [?] 'til five round, you gonna take some kicks  
Work like a slave to live like a king, I reverse the whip  
Respect your name to care your ladies and to care your kids  
You could never love too much for her, uh  
You could trust too much, uh  
Go through the business under, uh  
Don't have to say your number, uh  
Don't let the pain go under, uh  
Stand in the rain in front of, uh  
To cover the game my brother, uh  
But don't ever change your hunger, uh

Ah  
For my last breath I'ma give out the cold  
For my last breath I'ma let you know  
For my last breath I'ma give out the cold (Chyeah)

For my last breath I'ma let you know

For my last breath I'ma let you know  
For my last breath I'ma give out the cold  
For my last- hey, yeah  
For my last breath I'ma give out the cold, uh (Ha)
