

## Last Time

Lancey Foux

It's pink babe  
I said it's pink  
Last time, it could be the last time

Put another Xanax in the hand of my friend  
I'm in another planet get my bands out the Benz  
My whole entourage in the party leaving  
Every bird I'm with got some drugs for the evening  
Last time I burnt this I got very high  
Last time I drank this I felt very nice  
Last time I met her we were in another place  
Last time we kissed now I gotta' fade  
Last time, Last time, just like last time  
Last time, Last time, just like last time  
Last time, Last time, just like last time  
Last time, Last time

Remember the time, resting this mic  
I'll set this lean with four cubes of ice  
I'll roll this sweet give my table a wipe  
Pull-up give a label a sign  
I am not a good influence I'm a kid on drugs not liquorice  
When it's time for a wee, I want drugs and to sleep  
Heartbreak kid all over the world, I fuck her for the last time  
pick another girl, take another mushroom and let's see your vision  
I wanna lead the cool kids on a mission  
On a mission on a quest  
Roll up one pop a next  
Fuck a phone fuck a text  
Good vibes great sex

Last time I burnt this I got very high  
Last time I drank this I felt very nice  
Last time I met her we were in another place  
Last time we kissed now I gotta' fade  
Last time, Last time, just like last time  
Last time, Last time, just like last time  
Last time, Last time, just like last time  
Last time, Last time
