

On Ur Mind

Lancey Foux

I must be on your mind girl
I must be on your mind girl
I must be on your mind girl
I must be on your mind girl

I must be on your mind girl
I must be on your mind girl
I must be on your mind girl

Looking sexy, oh it seems
Looking richer, oh it seems
You can boss up til' you're home with me
It's a stand off til' you're all over me
It's a stand off girl I'm a fine balance
And I'm hands on Imma work you til' you're retired
Vegetable diet I'm feeding you iced out carats
Rolex blue dial and you just had to have it girl

I'm the one for your new life I'm that make you happy girl
You know Imma do well you couldn't do before
I can see in your eyes, you're certainly sure
I can read your mind, your body and soul

I can see you fed up
I can treat you better
Soon as you get up
I get you better

I must be on your mind girl
I must be on your mind girl
I must be on your mind girl

Looking sexy, oh it seems
Looking richer, oh it seems
You can boss up til' you're holding me
It's a stand off til' you're all over me

My girl is a gun and she stay on my hip like a pistol
She can see I'm the one I was balling out the crystal
She want a man with some stripes you know I'm clean as a whistle
I like her I'm changing her plans it's lump sums and residuals

Hop in with me on a flight only time I'm plain and simple
I wanna keep you shining, we can go ice on the dimples
I know we been low we been hiding but now it's show time girl
I stay on the press like an iron I stay on your mind girl

I must be on your mind girl
I must be on your mind girl
I must be on your mind girl

Looking sexy, oh it seems
Looking richer, oh it seems
You can boss up til' you're home with me
It's a stand off til' you're all over me
