Ever have you made a monster scream?
Ever tried some lobster with the cream?
Ever had you lived out all your dreams?
I know what I want and what I need
I put 10 toes down on the ground
I'mma give that pussy back safe and sound
I'mma bring that D'USSE back safe and sound
I'mma live my movie safe and sound

Sweetheart sorry to bother ya, number now in my Nokia
I got that Sonia and Connor love
That means I'll treasure and honour ya
Put my right leg in my jeans first
I like my rice kept, don't put my meat first
I just stopped selling coke, weren't improving my credit
Baby, you will or you won't, either use it or sell it
I do what I want, you can pause
I pray to myself and the Lord
Playing no games, fuck a score
Need me a horse and a Porsche
Oh yeah, Lancey the 1st, fuck what you know and you heard
Look what you grow when you learn
Drugs what I smoke and I burn
The female that I don't own
If this too easy then don't
When I get a cheque
When I get a threat
The bitch make me sweat
I wanna call and collect
I don't call for respect
These niggas my pets
Tell a rapper go fetch
Mix my sprite with the tech
Menthol my gret
I bring her by text
