Lancey Foux

Serving the sound
Serving the sound

Drugs got me serving the sound
Black label spilling on my well-tailored trousers
White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains
Drugs got me serving the sound
Black label spilling on my well-tailored trousers
White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains

I ain't 21, they might not let me in the club
I ain't anyone, they gotta let me in the club
I'd rather be at home but my presence is a must
Me and you together means my present is by luck
I landed in New York, I'm at the hood strip club
I came here with the pounds and they're talking 'bout bucks
AJ with the rounds, she never wanna give it up
Beyblade with the sound, I'll rip and spin you with a song

Drugs got me serving the sound
Black label spilling on my well-tailored trousers
White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains
Drugs got me serving the sound
Black label spilling on my well-tailored trousers
White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains

Shake it, take it
The price high, nice mind
Murder on the dancefloor, start with white wine
Partly white lines, demons in my eyesight
Put some respeck on myself
Nyge threw you niggas on the shelf
Ice on me never gonna melt
Even if it does, [?]
[?] put a ringer to a bell
How'd you think I feel when they told me go to hell?
Need me, I can tell
You're fiending, I can tell
See me by the Shell
Filling my diesel by the Shell
Everything high-maintenance
The litres high as well
'Bout to leave the club and
Change locations, can't you tell?
So I'm 'bout to close the curtains, baby
Kenan with the Kel

Drugs got me serving the sound
Black label spilling on my well-tailored trousers
White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains
Drugs got me serving the sound
Black label spilling on my well-tailored trousers

White paraphernalia placed north of her mouth
See from top to bottom, I'm a bird in the mountains
