

SPIRIT OF X2C

Lancey Foux

If there's anything that I know
If there's anything that I know, it's the spirit of ecstasy, ec
stasy
If there's anything that I know, I need you right here next to
me, next to me
I need you right now, here in my arms
Spirit of ecstasy (Ecstasy)
Oh-oh
Spirit of ecstasy, ecstasy, ecstasy, ecstasy
And the spirit of love

No more wishin' for love (Wishin' for love), oh-oh
I know you've been wishin' on a star
Top boy, she give me Michelin star
I know when you caught me in a glance
I know you put molly in a glass, yeah
I know you wanna take some more
If you're riding me, you're dying, then you're riding, yeah
Take some more
I decided, I decided
I'ma ride for myself, stop tryna save the world
This is life in hell

If there's anything that I know
If there's anything that I know, it's the spirit of ecstasy, ec
stasy
If there's anything that I know, I need you right here next to
me, next to me
I need you right now, here in my arms
Spirit of ecstasy (Ecstasy)
Oh-oh
Spirit of ecstasy, ecstasy, ecstasy, ecstasy
And the spirit of love
And the spirit of love, love, love, love, love, love
I've been wishing for love, love, love, love, love
