

WAKE UP / I'M ALIVE

Lancey Foux

Live like no other

Wake up, live like no other
Wake up, live like no other

I give a limb to my brother
Do a bid for my mother
I'm as big as my papa, yeah-yeah, I'mma win for my sister
Live like no other
I'm keeping love inside my spirit and my soul
The devil tryna make me feel like I'm alone
And I'm guilty I let him take control, yeah
Had me giving attention to the hoes
When I see Leomie's face
I know, yeah-yeah, I know
I see my sons face and he ain't even born
I see my daughters face and she ain't even born
Just to see if I'mma stay alive, yeah
Fall in love with me and took the
I show my wrongs before I show I'm right, yeah
If I ain't honest then who am I then?
I made a promise and I'm doing right

Wake up, live like no other
Wake up, live like no other
Wake up, live like no other
Wake up, live like no other

Who gonna be there when I need to ride, I need strength on my side, me
Who gonna be there to check on my bullshit, pull me to the side, me
Who gon be the one I might not tell the truth, but never gon lie to, me
Who gonna be there at my highest of highest, the day that I die too, me
Who gonna remind me where I come from, me
Who gonna design my life the way I want, me
Who gonna take out my problems and make me face it, me
Who gonna tell me I'm the greatest, me

African man you can tell by the way that I stand and the way that I Eh-eh-eh
Top of the mount, yeah, silence my sound, I cannot take any Ke-ke-ke
Slaughter the lamb, eat with my hands, make sure the stew Pe-pe-pe
Right foot, left foot, step a bit
Right foot, left foot, step a bit
I get on my knees and double my hands, I pray to the moon
King of my spirit, they start moving different when I'm in the room
Blood in the eyes of my soldiers
Blood in the eyes of my goons
I just got wiser and older
I know before I assume
I just cut everyone off if I want, then how could I lose?
I broke up with love because love don't let you choose
They gon be in the air watch you til you fall, I pity the fool

Who gonna be there when I need to ride, I need strength on my side, me

Who gonna be there to check on my bullshit, pull me to the side, me
Who gon be the one I might not tell the truth, but never gon lie to, me
Who gonna be there at my highest of highest, the day that I die too, me
Who gonna remind me where I come from, me
Who gonna design my life the way I want, me
Who gonna take out my problems and make me face it, me
Who gonna tell me I'm the greatest, me

Who badder than the baddest?
Who give you
Who riding with a baddie?
Who gonna make you matter?
Who gonna make you matter? Me
I'm in too deep, got the best of me
I'm in too deep, got the best of me
I could die if I sleep, cause I live in my dreams
Who else could I be? If you can only see me
Who else could I be? If you can only see me

Who gonna be there when I need to ride, I need strength on my side, me
Who gonna be there to check on my bullshit, pull me to the side, me
Who gon be the one I might not tell the truth, but never gon lie to, me
Who gonna be there at my highest of highest, the day that I die too, me
Who gonna remind me where I come from, me
Who gonna design my life the way I want, me
Who gonna take out my problems and make me face it, me
Who gonna tell me I'm the greatest, yeah
