

Wild Goat

Lancey Foux

It sounds like Nyge

Just in, breaking news
Wild GOAT on the loose
Lancey Foux, is that you?
Mandem, is that you?
Just in, breaking news
Wild GOAT on the loose
Lancey Foux, is that you?
Mandem, is that you?

Is it you? Is it I?
Wild GOAT, they can't find
They're spreading news, I'm hearing lies
Turned my phase into a flight
She placed the pork up on the pie
I'm highly soulful, hardly light
I pray to God, he sends advice
I like my bread and wine with ice
My present purpose is the price
Run it up, run a height
Dunking beanies with a dyke
Black Houdini, come to life
I'm Billy Ocean, I'm revived
I'm staining sofas, I'm sitting nice
I'm talking popes, linen white
You niggas old, [?]
Due to actual facts
I get actual gash by the hour
Sex in the showers
Put time in, grind, get power, actual facts
You've got a bitch and you don't know her secrets
I've got a chick from Victoria's Secret
Actual facts
Difference - I'm not made in [?]

Dropped out of uni and spent your degree on an outfit
Better than me? Bro, I doubt it
Cookie on me, loud as hell and it's shouting
I can't do facts cause I'm clowning
Pussy, ain't 'bout it
Fucking your girl in the mall, that's an outing
Brought her a clutch, now she's smiling and pouting
Fuck all you niggas, just carry on doubting
AJ from the L-L x Lancey (Foux)
Can I get a verse for a feature? (no)
Fucking on your bitch, she a hoe hoe (hoe)
I'm the weatherman cause I gave her (snow)

Probably made her cum, then I made her (go)
Made back two from a bloodclart (O)
And girl said "baby, can I see you soon?"
I told her "babygirl, come and see my show"

Penmanship impeccable
I've been wavy since the way out
Way, way out
See me like ghost shadows, I'm boxing
Practice, hours and hours
I've been a problem
Locksmith, opening doors
Leave you no options
Cockpit, mahogany tone
Vivica fox skin
Babyface, youngers are savage
They selling Johnson
Scrape the rest off of the stove
And chef Bronson
Satin black, melanin-kissed
I need a holiday
Nominated, walk out the building
With that McGregor sway
Come like AJ with the right hand
AJ Tizzy with the pasta
Blowing Marley like the rasta
Feel Boyega at the BAFTAs

Last week, got that Sonya on the Lyca
Ring my Nokia, I've got that Bieber
I just burnt my hand on a rex
What happened with your girl last night? I got amnesia
Look, MCs come at me, best come right
No stress, I'll make your girl cum right
Model ting from south, she move boujee
In the rave, she still do them gun signs
Grinding till I see sunlight
Man skrrr skrrr with that Charlie
AJ nice with Kehlani
I got a runway shawty in my party
