

## First Beer

LANCO

It was 21-something  
But I don't really remember the score  
I called the final state that year  
Don't think about it much anymore  
My buddy's telephone number  
Ended in something like 485  
We lost touch after high school  
But I don't really remember why

As the years go by  
And memories fade  
There's a night in July  
That always stays

'Cause I remember my first beer  
It was a bittersweet taste  
But I had a straight face  
I raised it up and I said cheers  
Like a scene in the movies  
Doing something to me  
My memory is crystal-clear  
They went down pretty smooth  
But if you wanna know the truth  
Yeah, I remember my first beer  
'Cause I drank it, yeah I drank it  
I drank it with you

Just a blanket in a patch of grass  
Underneath the southern sky  
Your lips were on the bottle  
But I was wishing that they were all mine

Wasn't my first kiss  
It was my first buzz  
Was I getting drunk  
Or just drunk in love?

'Cause I remember my first beer  
It was a bittersweet taste  
But I had a straight face  
I raised it up and I said cheers  
Like a scene in the movies  
Doing something to me  
My memory is crystal-clear  
They went down pretty smooth  
But if you wanna know the truth  
Yeah, I remember my first beer  
'Cause I drank it, yeah I drank it  
Yeah, I drank it with you  
Yeah, I drank it with you  
Yeah, I drank it with

As the years go by (years go by)  
And the memories fade  
There's a night in July  
That always stays

'Cause I remember my first beer
