

Old Camaro

LANCO

I remember it like it was yesterday, yeah
We were kids and gonna plan our get away, yeah
Daddy shined it up like he did in '83
He was fighting with my momma when I stole the keys
Told you meet me on the corner of your block
Make sure that you don't get caught
We can outrun our future just like we can outrun the cops

You and me in an old Camaro
Whole lot of love and a little dinero
The world in the tail lights and a little bit scared, oh
Just you and me
Three on the tree
In an old Camaro

A quarter tank you put your hand up on my shoulder
Mascara running down your cheek so I pulled over
You said I hate this town and I hate all the drama
But I love my sister and I think I miss my momma
Dashboard light like a candle
Wrapped you up in my flannel
'Cause in each other's arms the word was something we could handle

'Cause you and me in an old Camaro
Whole lot of love and a little dinero
The world in the tail lights and a little bit scared, oh
Just you and me
Three on the tree
In an old Camaro

Dropped you off right as the sun started to rise
Kissed your forehead and we went on with our lives
But I still think about if we never turn back
Somewhere in my mind at least I'll always have

You and me in an old Camaro
Whole lot of love and a little dinero
The world in the tail lights and a little bit scared, oh
Just you and me
Three on the tree
In an old Camaro
In an old Camaro
You and me in an old Camaro
You and me in an old Camaro
