

# We Grew Up Together

LANCO

On the counter laid a test  
Your mom picked up from CVS  
Remember thinking "I'm too young for this"  
Those 9 months came and went  
Got an angel Heaven sent  
Promised that I always try my best

But there's no instruction book  
On how to raise a kid  
Holding life in my hands  
When I ain't figured mine out yet

You learned to walk  
I learned to walk in my faith  
You learned to talk  
I learned the things I shouldn't say  
You ain't the only one who's gonna make mistakes  
God made you, you made me better  
We both won't stay young forever  
You don't know it now but one day you'll find out  
That we grew up together

Putting in the overtime  
Restless days and sleepless nights  
Knowing I won't always get it right  
Started working on myself  
Whiskey stays up on the shelf  
'Cause holding you I don't need nothing else

You learned to walk  
I learned to walk in my faith  
You learned to talk  
I learned the things I shouldn't say  
You ain't the only one who's gonna make mistakes  
God made you, you made me better  
We both won't stay young forever  
You don't know it now but one day you'll find out  
That we grew up together

You'll learn to drive, I'll drive you crazy  
But you'll always be my baby  
No matter where you go  
Somewhere down the road you'll realize  
You were growing up  
So was I

You learned to walk  
I learned to walk in my faith  
You learned to talk  
I learned the things I shouldn't say  
You ain't the only one who's gonna make mistakes  
God made you, you made me better  
We both won't stay young forever  
You don't know it now but one day you'll find out  
That we grew up together  
We grew up together
