

## Footnotes

Land of Talk

Send your lover on a run,  
Have a cigarette, and call me back  
Seems I'm having all the fun  
I love it how you know my pain  
In around I've been around the sad  
And stopped to know you still  
Come on, tell me your psychotic thoughts  
Calm you down you know I will

Night after night  
I'll be there  
Yeah I'll be there night after night  
You know I will

We come at it alone  
But we can't quite face it  
Get lost in a dream  
Now we can't escape it  
Know this ice was once warm water  
My baby she don't wanna know me  
Yeah my baby she don't wanna know me now

Night after night  
I'll be there  
Yeah I'll be there night after night  
I said I would
