

# Your Beautiful Self

Land of Talk

Were you all but wished out?  
Western lights are open  
Hey, you want a long life  
Some they want to test it  
Our late to love is  
Someday we want to be out  
These under-cared eyes  
Who know what's on the table

Were you on a mission?  
Kissing at the water  
Live inside of reason  
Whose colour dyes the ocean  
Fly in the bay breeze  
You sea  
You salt  
You everywhere  
Is this favourite warning  
But I don't tell, just like the distance

'Cause maybe you feel bad about yourself  
Maybe, maybe you're free just like the ocean

Take a rogue step  
Pick up lightly  
Make it so that it may be seen  
Hopeful I, I want to hopefully  
Just stay on my side  
The way you sulk around town

No one likes it  
Run in the sea  
In the morning light  
If I believed, I could just say  
Take a deep breath  
Let it out  
Show the love in

Spent so much time on fire  
Baby, I've gotten tired  
And in this favourite warning  
But I don't tell  
I just like the distance

'Cause maybe you feel bad about yourself  
And maybe, maybe you're free just like the ocean

Take a rogue step  
Pick up lightly  
Make it so that it may be found  
If it works out, then it works out  
Unknown was it shown  
The way you sulk around town  
No one likes it  
Run in the sea  
In the morning light  
If I believed, I could just say

Take a deep breath  
Let it out  
Show the love in
