

Yuppy Flu

Land of Talk

Father thought
How you threw the horse race
suffering on the wet one
laying on the dry day
oh did you leave it all alone
I'm your electric heater
How could you leave it all alone
Cause now we got a bleeder

Are you seeing your own death
and selling it to me
Are you seeing your own death
and selling it to me

Father thought
How you threw the horse race
Its all because of water
Pissing on the Earth's face
oh did you leave it all alone
I'm elective leader
How could you leave it all alone
Cause now we got a bleeder

Are you seeing your own death
and selling it to me
Are you seeing your own death
and selling it to me

Are you seeing your own death
and selling it to me
Are you seeing your own death
and selling it to me
Well your seeing your own death
and selling it to me
Stop seeing your own death
and selling it to me
