

Deep Inferno

LANDMVRKS

Thought I was doing better
I'm stuck in the same terror
And I'm going back to the deep inferno
Deep inferno
No
Deep inferno

Stay away
I'ma say this
I'm a freak, I'm not gonna fake it
I've been trying to do better for ages
Think I need a break, I see the devil in
I need to break free from my own cage
Everything is fading away from me

And I feel the pressure coming in
The thoughts in me has come again

It's doing me in
You'll see my face in the deep inferno

Thought I was doing better
Instead, I've gone lower
And I'm stuck in this forever
Think I need a break, I see the devil at my neck
I need to break free from my own cage
Everything is falling and is fading away from me

And I feel the pressure coming in
And I'm stuck in this forever

Stay away
My mind is killing me
Something wrong with my head
And I'm lost in the everything
Break away
I'm my worst enemy
I've been feeling useless
But you won't fix me anyway

You dug a hole and you pushed me in
You lit the flames and you threw me in
You dug a hole and you pushed me in
You lit the flames and you threw me in

You dug a hole and you pushed me in
You lit the flames and you threw me in
You dug a hole and you pushed me in
You lit the flames and you threw me in

I saw the end
I saw the end
I saw the end
I saw the fuckin' end
No one can fix me anyway
Can you fix me?

Stay away
My mind is killing me
Something wrong with my head
I'm lost in the everything
Break away
I'm my worst enemy
I've been feeling useless
But you won't fix me anyway

I've been feeling useless
Stay away
I'm my worst enemy
Deep inferno
