

Paralyzed

LANDMVRKS

Fallen God, empty throne
Sometimes I feel like a rolling stone
I'm trying to sleep but it's spinning way too fast

Lonely monster, lying down
Questioning things I never doubted
Trying to break the ice until it cracks

Run, you're way too close
I feel it in my bones

I can move my face but my body's paralyzed
It's dripping down my cheeks but there's nothing left to cry
Shouting out my grief until my words collide
I've never been so alive but my body's paralyzed

Feel the sounds, hear the moans
Ricocheting off all the walls
Don't give me nothing, cause I can't give it back

Run, you're way too close
I feel it in my bones

I can move my face but my body's paralyzed
It's dripping down my cheeks but there's nothing left to cry
Shouting out my grief until my words collide
I've never been so alive but my body's paralyzed

I've never been so alive

I can move my face but my body's paralyzed
It's dripping down my cheeks but there's nothing left to cry
Shouting out my grief until my words collide
I've never been so alive but my body's paralyzed

Run, you're way too close
I feel it in my bones
