LANDMVRKS

It's so cold and frozen  
And every bricks of the walls  
Are so close to falling apart

I've never loved you back  
Am I insane  
Oh, this world is too cold to be able to feel anything  
Tonight I'll love you the next I will not  
The fuck is wrong, what are we looking for?  
You can't pull me out of my mistakes  
At the back of my mind, I can't see anything  
My reminiscence of this life was fake  
The more things change, the more they stay the same

It's so cold and frozen  
And every bricks of the walls  
Are so close to falling apart  
You never knew me  
I'm on the edge of the world  
Swimming on the undertow

You can't pull me out  
I'm swimming on the undertow  
What the fuck is wrong with me  
Am I insane oh, this world is too cold to be able to feel...  
Am I finally finding my way?

It's so cold and frozen  
And every bricks of the walls  
Are so close to falling apart  
You never knew me  
I'm on the edge of the world  
Swimming on the undertow

I feel this ice inside my narrow veins  
My heart is so fucking cold  
It freezes, but you will never know  
Take this frozen hell out of my chest  
Cause I can't live with it  
Hear me calling, I feel myself going down  
Words unspoken... are the only thing I've found  
My heart's an iceberg  
And I'm hurting everyone who's coming closer  
So you should just leave me on my own

It's so cold and frozen...  
I feel myself going down...  
It's so cold and frozen...  
UNDERTOW
