

# Again

Landon Austin

I got two missed calls  
And now everything's on fire  
I haven't heard her voice  
In a while

All of my friends told me she's moving on  
I've been living my life, she lives with someone  
Now I'm falling asleep and my phones making a buzz  
So I pick it up  
And she says

How many nights until I'm over ya?  
Why's nothing else ever come close to us?  
Now every touch I'm missin' your skin  
And I'm never falling in love  
Like that again

I'm never falling  
I'm never falling  
I'm never falling in love  
And she says  
I'm never falling  
I'm never falling  
I'm never falling in love  
Like that again

We talk so damn late  
But I don't know what for  
Cause I can't tell what we're doin' anymore

All of my friends told me she's moving on  
I've been living my life, she lives with someone  
But for a moment tonight, it felt just like it was  
Just like it was  
And she says

How many nights until I'm over ya?  
Why's nothing else ever come close to us?  
Now every touch I'm missin' your skin  
And I'm never falling in love  
Like that again

I'm never falling  
I'm never falling  
I'm never falling in love  
And she says  
I'm never falling  
I'm never falling  
I'm never falling in love  
Like that again

I'm never falling  
I'm never falling  
I'm never falling in love  
And she says  
I'm never falling  
I'm never falling

I'm never falling in love  
Like that again

How many nights until I'm over ya?  
Why's nothing else ever come close to us?  
Now every touch I'm missin' your skin  
And I'm never falling in love  
I've come terms we don't get what we want  
And I found someone else, maybe that's good enough?  
I still think of you, but babe, I try to quit  
Cause I'm never falling in love  
Like that again

I'm never falling  
I'm never falling  
I'm never falling in love  
And she says  
I'm never falling  
I'm never falling  
I'm never falling in love  
Like that again
