

# Dragonfly

Landon Austin

Girl inside of a picture full of permanent fixtures  
Every color's a mixture of blue and white  
Standing there by the ocean, every word that we've spoken  
Overwhelmed by the motions of my mind

Compromise, tiptoe on ice  
Try to hide under the time  
The thought of us lands on me like  
A dragonfly, and I might

Never get over you  
Never get over you (I might, I might)

The man in the corner, looking all out of order  
He was trying to warn her about the time  
Like pulling a rabbit out of his leather jacket  
Is it just a bad habit that I might

Never get over you (I might, I might)  
Never get over you (I might, I might)

Thoughts in the hallway, bind with it all day  
Until the call fades out  
Breaching the last space, breathing in last place  
Dreaming of past takes down  
Compromise, tiptoe on ice  
Try to hide under the time  
The thought of us lands on me like  
A dragonfly, and I might

Never get over you (I might, I might)  
Never get over you (I might, I might)

Thoughts in the hallway, bind with it all day  
Until the call fades out  
Breaching the last space, breathing in last place  
Dreaming of past takes down

Never get over you (I might, I might)  
Never get over you (I might, I might)
