

Every Time

Landon Austin

We stole a bottle from the bar
In a fancy part of town
There's white wine on your lips
The taste got me buzzing now
I'd give anything to
Spend forever just like this
Just like this

'Cause every time
I'm with you, it feels like summer
It's so sweet when we under the covers
The whole world stops when I look at you
And every time
We go out, tell me how could we not
Make out, crashing a rooftop?
'Cause each night I fall more in love with you

Babe, every time (every time)
Oh, every time (every time)
Babe, every time (every time)
I fall more in love with you

We hideout at your place
Two kids on the run
You can sleep here in my arms
'Cause I'll never give you up
I'd do anything to
Spend forever just like this
Just like this

'Cause every time
I'm with you, it feels like summer
It's so sweet when we under the covers
The whole world stops when I look at you
And every time
We go out, tell me how could we not
Make out, crashing a rooftop?
'Cause each night I fall more in love with you

Babe, every time (every time)
Oh, every time (every time)
Babe, every time (every time)
I fall more in love with you

I can't help it, all I know is
I've never felt this till you
I can't help it, oh it might be selfish
But I will always want you

'Cause every time
I'm with you, it feels like summer
It's so sweet when we under the covers
The whole world stops when I look at you
And every time
We go out, tell me how could we not
Make out, crashing a rooftop?
'Cause each night I fall more in love with you

Babe, every time (every time)
Oh, every time (every time)
Babe, every time (every time)
I fall more in love with you
