

Timeless

Landon Austin

You are the summer
We were the tide
The clearest of azure
Bright as your eyes
Golden skin sundress
You were the skies
And I see the color
I've known all my life

We are timeless
We are timeless

Waves washing over
The sand on my feet
Time is an ocean
And I'm lost at sea
Tomorrow won't find us
But I still believe
Searching for you
Is looking for me

We are timeless
We are timeless
We are timeless
We are timeless

You are water
I am frozen
Skies are moving
I'm standing still
In the shadows
Of your twilight
I am falling
I am falling
I am falling

When nights last forever
And days run away
The world makes us fly by
Into the gray
With every season
Every change
You'll be the sunlight
I feel on my face

We are timeless
We are timeless
We are timeless
We are timeless

We are timeless
We are timeless
We are timeless
We are timeless
