

## Automatic

Lane 8

Soft dreams, echo your name  
Picture this, automatic pain  
Another road, another way to go  
When it comes to this only you would know

Can I just touch you now  
Will you be hard to find  
Can I just dance with you alone?

Come down, fall into my head  
Memories I laid to rest  
Tell me lies, sweet little lies  
Whispering all in the night

Can I just touch you now  
Will you be hard to find  
Can I just dance with you alone?

Can I just touch you now  
Will you be hard to find  
Can I just dance with you alone?

Alone alone alone?
