

Hold On

Lane 8

Now I want a reason why
Your word is worth more
And strange that you won't abide

When I have so nobly
Turn round, face all you won't
You're caught in the surface
You're distant, remote

And I can wait until you're done
Until you come down
Release you from
On the surface, your sense of calm
But a little later
You won't be what you were

I want a reason why
I worked so hard
I want a reason why
I wonder, I wonder why
I want a reason why
Tell me what to do

Hold on...

And I can wait until you're done
Until you come down
Release you from
On the surface, your sense of calm
But a little later
You won't be what you were

Hold on...
