

# Together

Lane 8

Bridge away  
(Together, I need your love)  
Wore a better day  
(Together, I need your love)  
Lie, I'll never know  
(I want to follow you)  
Lost the ever glow  
(I want to follow you)

I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together, I need your love)

(Together, I need your love  
Together, I need your love  
Together, I need your love  
Together, I need your love)

Bridge away  
(Together, I need your love)  
Wore a better day

I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together, I need your love)  
I want to follow you  
I want to follow you there (Together)

(Together, I need your love  
Together, I need your love  
Together, I need your love  
Together, I need your love)
