

## Evidence Based Ignorance

Lanfear

"The inexorable autumn of health  
which has hitherto remained untreatable  
produces this constant noise in my memory core"

Feelin' sweaty, feelin' cold  
Disbelieve pretentious verdicts!  
My journey ends, I'm left alone  
After all I blame them for the pain again

Confound you  
Preserve me  
The secret places I have reached

Neglected and orphaned ones  
Gonna keep reaching for the sun  
Educated twisted tongues  
Spread profound medical ignorance

I seep through my mind  
As my future is redesigned  
I have not found the cure yet  
Many mountains still to climb

We cannot always change  
Everyone who's to blame  
But you have to know who you wanna be

Neglected and orphaned ones  
Gonna keep reaching for the sun  
Educated twisted tongues  
Spread profound medical ignorance

I scream out loud, just the truth  
I cannot bring my thoughts down  
Demigods in white are now coming for you

Neglected and orphaned ones  
Gonna keep reaching for the sun  
Educated twisted tongues  
Spread profound medical ignorance
