

# Airplane

Langhorne Slim

You and I've got our backs against the wall  
If we stayed down, we wouldn't have far to fall  
But it's no fun relying on defenses  
We get our kicks swinging for the fence

And I said  
Yes, I wanna fly my airplane tonight  
It's so hard down here to unwind  
I ain't lost, but you can't find me  
When I said you're strange  
It was a compliment, you know

Spend most of my time lost at the races  
Now we get by making funny faces  
Some people live trying to be forgiven  
That might be life, oh but that ain't livin'

I said  
Yes, I wanna fly my airplane tonight  
It's so hard down here to unwind  
I ain't lost, but you can't find me

Now I see you in the mirror  
Certain we would disappear some day  
Maybe the wave that brought us here  
Will be the same that washes us away  
My partner don't know how to stop  
I'm trying to lose these thoughts to bring you down  
Forget the lessons we were taught  
That have tamed us and pinned us to the ground

You and I've got our backs against the wall  
When you don't move, no one throws you the ball  
Life's a dance between riding the bench and  
Waiting for your chance to swing for the fence

I said  
Yes, I wanna fly my airplane tonight  
It's so hard down here to unwind  
I ain't lost, come and find me  
When I said you're strange  
It was a compliment, you know
