

## By the Time the Sun's Gone Down

Langhorne Slim

Tell me someday if we talk  
Are you afraid of being haunted?  
And by the docks, we'll take a walk  
And discuss things we have and never wanted

And with the money that you've made  
Have your behaviors changed?  
And when someone gets fancy and you get antsy  
Will you still run to me?

So long, my only love  
In which direction have you gone?  
And by the time the sun's gone down tonight  
You'll know that you're the only one  
And by the time the sun's gone down tonight  
You'll know that you're the only one

I run into some people and  
They ask me how you are  
I'll tell them that you're doing well  
And hope that they step in front of a car

And tell me someday if we talk  
What did I say or did that made you leave  
And I know it's sometime I've done something  
But somehow I've got no memory

So long, my only love  
In which direction have you gone?  
And by the time the suns gone down tonight  
You'll know that you're the only one  
And by the time the suns gone down tonight  
You'll know that you're the only one

So long, my only love  
In which direction have you gone?  
And by the time the suns gone down tonight  
You'll know that you're the only one  
And by the time the suns gone down tonight  
You'll know that you're the only one
