

Changes

Langhorne Slim

Things could be stranger
But I don't know how
I'm going through changes now

I could spend a lifetime figuring it out
I'm going through changes now
That have just begun
Under a purple sun

There's many reasons
We are
What we've become

I'm going through changes
Ripping out pages
I'm going through changes now

I knew it once
But I forgot
I'm going through changes now

We want everything but
What we've got
I'm going through changes now

Maybe it's too soon
Under a purple moon
But I'd ride off with you
In a big balloon

I'm going through changes
Rattling cages
I'm going through changes now

Things could be different
But I don't know how
I'm going through changes
Through all the strangeness
I'm going through changes now
