

## Lost This Time

Langhorne Slim

Oh god, I wish I could explain  
I hurt the one I'm lovin' now  
I'm ashamed but I got lost this time  
And I just need some time  
To find myself again

We cried ourselves into a dream  
And in the morning, we woke to find relief  
And so we tried again  
But we got lost, my friend

Our love was skippin' like a stone thrown from the shore  
It hit the bottom, can I go down any more?

I tried to be the man I know that I can be  
But I still find the child hidin' inside of me

But we got lost this time  
We just need some time  
To find ourselves again

Our love was sinkin' like a stone thrown from the shore  
It hit the bottom, can I go down any more?

I started thinking the way I always do  
This way of living, it ain't good for me and you

We got lost this time  
We just need some time  
We got lost this time  
We just need some time
