

# Never Break

Langhorne Slim

Love is the key  
And under the stars  
I lit a flame  
To dance in the dark

Break my bones  
You can break my heart  
But you'll never break me

Love is the ocean  
We are the fish  
Love's the surgeon  
And we are the stitch

I've been wounded  
But I promise you this  
You will never break me

Love is the Buddha  
The Christ on the cross  
Angels are weeping  
Their tears are for us

Lies of our kind  
Well it comes at a cost  
Let's fall in love with our telephones off

Love's my president, my lord, and my boss  
And you'll never break me
