

## Put It Together

Langhorne Slim

I saw my reflection  
I fell on my knees  
I threw my possessions on to the street  
Now they're asking us questions  
To things we don't know  
Show your burning lover that you gotta let go

This heart of mine  
It hurts sometimes  
It was broken, now it's better  
Since your love put it together

I lost my direction  
On the day I was born  
Well I felt disconnected since they cut the chord  
If I learned my lesson  
I'd find me some peace  
'Cause I need protection from this heart on my sleeve

This heart of mine  
It hurts sometimes  
It was broken, now it's better  
Since your love put it together

This heart of mine  
It hurts sometimes  
It was broken, now it's better  
Since your love put it together
