

# Strangers

Langhorne Slim

I was born and I've been running since  
Done things that make no sense  
There was a devil in me  
I had to set him free  
New moods on old desires  
Things burn if you set 'em on fire  
Got a plan, I gotta be courageous  
In time, everything changes

For what it's worth  
We're strangers  
We don't wanna get hurt  
Even now, in the danger  
For what it's worth  
We're strangers  
For better or worst  
Even now, in the danger

If things seem better when they're far away  
That's exactly where they'll stay  
Now, what about the devil in you?  
Are you gonna cut him lose?  
Woke up on a rugged sea  
Free swimming inside of me  
I close my eyes and it got dark  
All a sudden I saw a spark

For what it's worth  
We're strangers  
We don't wanna get hurt  
Even now, in the danger  
Now, I get the feeling  
We can't lose  
The cracks are there  
But the light shines through

For what it's worth  
We're strangers  
We don't wanna get hurt  
Even now, in the danger  
Now, I get the feeling  
We can't lose  
The cracks are there  
But the light shines through
