

I check the wreckage
Make sure everyone inside is alive
(Come on wake yourself up)
All I see is my reflection
Just the defects in a faulty design
(Is it ever enough?)
Nobody loves me like you baby
You've got me feeling so high
I'm down on my knees
Another dose and now I'm oh so dirty
The way you take control
You only wanna leave me filthy
I'm down on my knees
I count the seconds
Slowly tick ticking aggression inside
(But behind these eyes)
Every hit is like a fetish
Where the darkness and the heavens collide

Filthy
Nobody loves me like you baby baby
You've got me feeling so high I'm down on my knees
Another dose and now I'm oh so dirty
The way you take control
You only wanna leave me filthy
I'm down on my knees
Nobody loves me like you baby
You've got me feeling so high
I'm down on my knees
Another dose and now I'm oh so dirty
The way you take control
You only wanna leave me filthy
The way you take control
You only wanna leave me filthy
I'm down on my knees
You only wanna leave me filthy
