

Frankenstein

Lansdowne

Sinking slowly in this watery grave
There's no forgiveness in these chains
I've tried to fight it but it's all been a waste
So tired of feeling like I don't know my face

Too far
These scars
Have got me caged like iron bars
I quit
Gave in
Now give me back my skin

Days go by I'm still rearranged
This Frankenstein slowly I became
I wanted out but can't find my way
I've lost myself with only you to blame
Buried alive
There's nothing left of me

These pictures haunt me like a ghost in the frame
I hardly recognize the sound of my name
I am a freak of nature empty inside

I'm just a stranger living a lie

Too far
These scars
Have got me caged like iron bars
I quit
Gave in
Now give me back my skin

Days go by I'm still rearranged
This Frankenstein slowly I became
I wanted out but can't find my way
I've lost myself with only you to blame
Buried alive
There's nothing left of me

There's nothing left of me
I hate what I've become

Days go by I'm still rearranged
This Frankenstein slowly I became
I wanted out but can't find my way
I've lost myself with only you to blame
Buried alive
There's nothing left of me
