

When we slip away
Tell me where we go
I can't touch you anymore
But I can feel your halo
Rise and fall it all depends on these machines
Can you feel me do you even dream
Maybe I should let this go
Heaven only knows
When we slip away
Tell me where we go
I can't touch you anymore
I can feel your halo
When we slip away
Tell me where we go
I can't touch you anymore
But I can feel your halo
Hold on tighter don't let go it's not a dream
In your nightmares no one hears you scream
When all that's left is loneliness
How do you live with it
When we slip away
Tell me where we go
I can't touch you anymore
I can feel your halo
When we slip away

Tell me where we go
I can't touch you anymore
But I can feel your
I can feel your halo
I can't touch you anymore
But I can feel your halo
I can't touch you anymore
But I can feel your halo
Every shallow breath that you took away
Every little step closer to the edge
Every shallow breath that you took away
Every shallow breath
When we slip away
Tell me where we go
I can't touch you anymore
I can feel your halo
When we slip away
Tell me where we go
I can't touch you anymore
But I can feel your halo
I can't touch you anymore
But I feel your halo
I can't touch you anymore
But I feel your halo
I feel your halo
