

Medicine

Lansdowne

I wanna feel you
Get dangerously close to me
Think I could heal you
If you'd let me inside
Because it's one step up
Two steps back
Careful what you say
Or they'll bury you
But if we all step up
And then push back
Maybe we could use a little medicine
We're not gonna be slaves to you
Don't give a damn about your point of view
So tired of all the f*ckin' hate you spew
We are, We're over it, We're over it
Cryin' wolf it only goes so far
Until the wolves are finally at your door
Sharpen their teeth on all the vitriol
We are, We're over it, We're over it
We are, We're over it
So controversial
We're hanging off of every word
Signaling virtue
You're acting like you're above the herd
Cuz' it's one step up
Two steps back
Careful what you say
Or they'll bury you
Maybe we could use a little medicine
We're not gonna be slaves to you
Don't give a damn about your point of view
So tired of all the f*ckin' hate you spew
We are, We're over it, We're over it

Cryin' wolf it only goes so far
Until the wolves are finally at your door
Sharpen their teeth on all the vitriol
We are, We're over it, We're over it
We are, We're over it
Some words are poison
The devil's inside the motherf*ckers that's spoken them
But sometimes the poison is all of the noise in
The indignant bullshit I'm f*ckin' over it
We're f*ckin' over it
Get f*ckin' over it
One step up
Two steps back
Careful what you say
Or they'll bury you
But if we all step up
And then push back
Maybe we could use a little medicine
We're not gonna be slaves to you
Don't give a damn about your point of view
So tired of all the f*ckin' hate you spew
We are, We're over it, We're over it
Cryin' wolf it only goes so far

Until the wolves are finally at your door
Sharpen their teeth on all the vitriol
We are, We're over it, We're over it
We are, We're over it
Maybe we could use a little medicine
Maybe we could use a little medicine
