

# New Day

Lansdowne

Last night a man came by  
He said you haven't lived until you've tried  
To be a  
Caged bird let himself break free

He said he don't mean to criticize  
He's just a passerby with young man's eyes  
Said when he was my age, he looked just like me

Young man don't you know  
It's ain't where you been  
But where you have to go and...

Fi fi  
Gotta say goodbye  
To the road that I've been traveling  
To the load that I've been carrying  
It's a new day  
A new day  
Yes it is

Fi fi  
Gotta say hello  
To the places that I'm gonna go  
The great unknown and the open road  
It's a new day  
A new day  
Yes it is

Love lost, left, I cried  
But through it all  
Held my head high  
'Cause these memories have made me who I am

I don't care what's on the other side  
Of this Mountainhigh that I'm about to climb  
But those old man's words keep playing in my head

Young man don't you know  
It ain't where you've been  
But where you have to go and...

Fi fi  
Gotta say goodbye  
To the road that I've been traveling  
To the load that I've been carrying  
It's a new day  
A new day  
Yes it is

Fi fi  
Gotta say hello  
To the places that I'm gonna go  
The great unknown and the open road  
It's a new day  
A new day  
A new day

A new day  
Yes it is

To the lives we leave behind  
To the love we look too find  
Can you feel the new day come and...  
Yeah yeah

Fi fi  
Gotta say goodbye  
To the road that I've been traveling  
To the load that I've been carrying  
It's a new day  
A new day  
Yes it is

Fi fi  
Gotta say hello  
To the places that I'm gonna go  
The great unknown and the open road  
It's a new day  
Yes it is
