

# One Shot

Lansdowne

I wanna know what it feels like  
To get a taste for your appetite  
Lay it down on the bar room floor  
Let the whole room watch while you're screaming, screaming

We can move into your bedroom  
Switch up positions off and go for round two  
Tied down gonna leave no doubt  
From the first kiss, to the screaming, screaming

She'll be my favorite mistake

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to go

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to go

Beautiful's got an attitude  
In a miniskirt and those cowboy boots  
On-top ride her like a cage match  
Gotta ring that bell yeah, ride it, ride it

Dirty girl had a tough day  
Now she's off for more than foreplay  
Needs a man that'll understand what she wants right now is a good time, good time

She'll be my favorite mistake  
Tell your boyfriend that you're gonna be late

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to go

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to go

One smile, one little kiss  
I get off by the way she bites her lips

Too late, I can't deny  
Here we go again

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to...

One shot and she's feeling better  
Two shots and she's on a role  
Three shots and she's begging me to go

Give me a Hell Yeah she's my kind of woman  
Give me a Hell Yeah she's my kind of girl

Give me a Hell Yeah she's my kind of woman  
Give me a Hell Yeah she's my kind of girl
