

care less

LANY

I'm not gonna talk about love on a Brooklyn rooftop
What a waste of time
These drinks I've been throwing down adding up to a lot
For a Monday night

Tired of giving all that I get (I'm tired of giving all that I get)
Tired of thinking that's all I feel (I'm tired of thinking that's all
I feel)
Gotta make a change while I can (I gotta make a change while I can)
I don't mind if you don't like it

Ripping through this town, calling all my ex-girlfriends
Blowing all my money, throw it all away
Burning down my house, I'm a brand new person
Tryna get closer to feeling every day

A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less

I'm not gonna talk about love in the Hollywood Hills
Such a waste of time (Mm-hmm, mm)
Never think about you and what your friends say about me
We're all gonna die

Ripping through this town, calling all my ex-girlfriends
Blowing all my money, throw it all away
Burning down my house, I'm a brand new person
Tryna get closer to feeling every day

A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less

Tired of giving all that I get (I'm tired of giving all that I get)
Tired of thinking that's all I feel (I'm tired of thinking that's all
I feel)
Gotta make a change while I can (I gotta make a change while I can)
I don't mind if you don't like it (Ah)

Ripping through this town, calling all my ex-girlfriends
Blowing all my money, throw it all away
Burning down my house, I'm a brand new person
Tryna get closer to feeling every day

A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less
A little bit less, care a little bit less
