

## current location

LANY

How'd you fail to mention  
That you might be moving  
In four months to London?  
Now our days are numbered  
Should I try, I wonder  
Wait, how far is London?

I need my current location  
To be your current location  
Fly back to me  
I need my current location  
To be your current location  
Fly back to me  
Fly back to me

You say it's just the season  
Got the job, so now you're leaving  
Kinda hate that reason  
Please don't get me wrong now  
I want what you want  
But how long will you be gone?

I need my current location  
To be your current location  
Fly back to me  
I need my current location  
To be your current location  
Fly back to me  
Fly back to me

Don't make me look stupid  
For waiting just to lose ya  
Love me? Can you prove it?

I need my current location  
To be your current location  
Fly back to me  
I need my current location  
To be your current location  
Fly back to me  
Fly back to me

Fly back to me, come back to me, then stay with me, yeah  
Fly back to me, come back to me, then stay with me, yeah  
Fly back to me, come back to me, can you stay with me?  
Fly back to me, come back to me, then stay with me, yeah
