

get away

LANY

You know the deepest cuts by the coolest bands
Spent a year abroad solo in Japan
Wrote your senior paper 'bout exploding stars
How they're made up of the same things we are

Thinkin' 'bout what's next
Talkin' 'bout my life, could spend the rest
I can see it now, and now I trust
Feel like I should call and thank your ex
Sittin' here like

Damn, how could anybody let you get away, get away, get away?
I can't, think of any time I ever felt this way, felt this way,
 felt this way (Felt this way)
What more could somebody want?
Like God, let me draw you up
Damn, how could anybody let you get away, get away?
I won't let you get away

You wouldn't be caught dead wearing yoga pants
You're more Paris, Texas than Paris, France
You know every word, some 'bout Kurt Cobain
Look, you're perfect, that's why I've been trying to say so

Damn, how could anybody let you get away, get away, get away?
I can't, think of any time I ever felt this way, felt this way,
 felt this way (Felt this way)
What more could somebody want?
Like God, let me draw you up
Damn, how could anybody let you get away, get away?
I won't let you get away

Thinkin' 'bout what's next
Talkin' 'bout my life, could spend the rest
I can see it now, and now I trust
Feel like I should call and thank your ex
Sittin' here like
