

i die first

LANY

You can tell all our friends, everything that you hate about me
Don't leave out the things you'd change if you had a choice
Find a bar, have some drinks, go to bed with somebody else then
Call me up just so I can hear the sound of his voice

'Cause I know it's the wrong thing to say
But I'm only tryna find a way to tell you

You got me sitting in your car, thinking you can do anything yo
u wanna
Take it for a drive, do a nosedive, make sure I die first
I guess no matter how far, it'll never add up to a life without
ya
I don't wanna know, baby, don't go, make sure I die first

Take my card, max it out, spend it all on some shit you don't n
eed
Turn around and tell me that it wasn't enough
Call my mom, make her cry, talk about how I disappoint ya
Put me down, bottom line, I'll still be in love

'Cause I know it's the wrong thing to say
But I'm only tryna find a way to tell you

You got me sitting in your car, thinking you can do anything yo
u wanna
Take it for a drive, do a nosedive, make sure I die first
I guess no matter how far, it'll never add up to a life without
ya
I don't wanna know, baby, don't go, make sure I die first, yeah

Make sure I die first
Make sure I die first

You got me sitting in your car, thinking you can do anything yo
u wanna
Take it for a drive, do a nosedive, make sure I die first
I guess no matter how far, it'll never add up to a life without
ya
I don't wanna know, baby, don't go, make sure I die first, yeah

Can't live without you, baby
Can you make sure, I die first?
Can't live without you, baby
Can you make sure, I die first?
