LANY

Grab your coat, the sun sets right at 6:35 tonight  
Gets kinda cold, but I wanna hold ya  
Please tell me that's alright

It's been a while since we first met at  
The party up on the hill  
And I'm thinking we should make out  
If you want me still

You are my number one, baby  
I like you lots  
I think everybody knows, baby  
I like you lots

Windows down, we can smell the ocean  
It's hard to see through our hair  
When we're together, we look like the coolest  
Baby, you know they all stare

It's been a while since we first met at  
The party up on the hill  
And I'm thinking we should make out  
If you want me still

You are my number one, baby  
I like you lots  
I think everybody knows, baby  
I like you lots  
You are my number one, baby  
I like you lots  
I think everybody knows, baby  
I like you lots

It's been a while since we first met at  
The party up on the hill  
Do you think that we should make out?  
You know I want you still

You are my number one, baby  
I like you lots  
I think everybody knows, baby  
I like you lots
