

## live it down

LANY

First to let you live it down

I just heard, it's so many words  
That was every right decision, you just took a turn  
I bet everything inside you wants to take it back  
But it's where we're at  
All I know, you shouldn't be alone  
So I'm in my car, I'm coming over, are you home?  
I got a shoulder you can lean on, and a fifth of Jack  
'Cause I got your back

People make rockets, they go to the moon  
People make mistakes too  
So whatever you do

Know that I will still be here  
If the whole world shuts you out  
I'm not gonna run  
If you mess it up, I'll be the one  
Be the first to let you live it down

I'm sure it feels, like this wound won't heal  
And the shadow that you're living in is all that's real  
But tomorrow is a story that's not written yet  
So take a breath, and don't forget

That people make rockets, they go to the moon  
People make mistakes too  
So whatever you do

Know that I will still be here  
If the whole world shuts you out  
I'm not gonna run  
If you mess it up, I'll be the one  
Be the first to let you live it down  
You can cry a million tears  
But I can't pass out on my couch  
It's the kind of love  
If you mess it up, I'll be the one  
Be the first to let you live it down  
The first to let you live it down  
The first to let you live it down, yeah

People make rockets, they go to the moon  
People make mistakes too
