

## never mind, let's break up

LANY

Never mind, let's break up

We watch the waves crash from my living room  
But you got over that after a month or two  
Sick of the beach so we flew to New York  
And we partied all night but you still say you're bored

We both know something's gotta change  
'Cause I'm all give and baby, you're all take

You pick another fight, tryna find another thing wrong with us  
I was down to let it slide 'cause you get a little mean when you drink too much

Girl, can you name a time I didn't go and get you everything you want?

Nah, thought about giving you one more chance  
Never mind, let's break up  
Never mind, let's break up

When you're upset I end up on the couch  
And I feel like a stranger inside my own house  
I stopped working late and I stopped getting high  
And I stopped being me 'cause I thought that's what you like

Pick another fight tryna find another thing wrong with us  
I was down to let it slide 'cause you get a little mean when you drink too much

Girl, can you name a time I didn't go and get you everything you want?

Nah, thought about giving you one more chance  
Never mind, let's break up  
Never mind, let's break up  
Never mind, let's break up

(Thank you for the ride, this is the end of our road)  
Never mind, let's break up  
(Muchas gracias señorita, adiós)
