

Purple Teeth

LANY

Closer than before
I know you feel the same way, too
Watercolor nights
You painted these, I'm impressed by you

Question love and God
And where you find what you're looking for
We laugh so we don't cry
Purple teeth lying on the floor

Just like that
You've come back again
My cracked lips
On a familiar skin

But I slept in my clothes
'Cause I'm too scared of us
I know what I lost in those previous months
Perplexed on the porch
'Cause you hate what I do
So why did you ask me to stay here with you?

Easier than this
I'm guilty of living black and white
Quick to let me know
There's so much more than what meets the eye

Question love and God
And what are we even living for
We dance so we don't die
Purple teeth moving on the floor

Just like that
You've come back again
My cracked lips
On a familiar skin

But I slept in my clothes
'Cause I'm too scared of us
I know what I lost in those previous months
Perplexed on the porch
'Cause you hate what I do
So why did you ask me to stay here with you?

Just like that
You've come back again
My cracked lips
On a familiar skin

But I sleep in my clothes
'Cause I'm too scared of us
I know what I lost in those previous months
Perplexed on the porch
'Cause you hate what I do
So why did you ask me to stay here with you?

But I slept in my clothes

'Cause I'm too scared of us
I know what I lost in those previous months
Perplexed on the porch
'Cause you hate what I do
So why did you ask me to stay here with you?
