

Can you chill, stop freaking out for a second?
Cause it's hard to think when you're losing your mind
And I know that you've got, like, ten thousand questions
And to be real, I actually don't have time

Cause we could fight all day about the future (future)
But I don't even know where I'll be next week
Or we could hang all day, forget the future (future)
I'm here right now, just be here right now with me

Quit running away, you're running outta room
You and I know that's not what you wanna do
Quit running away, quit running away
Quit running away, you're running outta room
You and I know that's not what you wanna do
Quit running away, quit running away

You've been hurt, but come on, nobody's perfect
And I'm tired of hearing how they did you wrong
Cause I'm not them, you're not with them, can we drop it?
How good would it be if you just move on?

Cause we can fight all day about the future
But I don't even know where I'll be next week
Or we could dance all night, forget the future
I'm here right now, just be here right now with me

Quit running away, you're running out of room
You and I know that's not what you wanna do
Quit running away, quit running away
Quit running away, you're running out of room
You and I know that's not what you wanna do
Quit running away, quit running away

Cause we could fight all day about the future
But I don't even know where I'll be next week
Or we could hang all day, forget the future
I'm here right now, just be here right now with me

Quit running away, you're running out of room
You and I know that's not what you wanna do
Quit running away, yeah, quit running away
Quit running away, you're running out of room
You and I know that's not what you wanna do
Quit running away, quit running away

I won't let you quit, I won't let you quit
I won't let you quit, no
I won't let you quit now, I won't let you quit
I won't let you quit now
