

roll over, baby

LANY

Most of the time we see eye to eye
And it's not like us to be staying up to fight
Most of the time yea we're so in love oh
What did I do? What did I say? What's up?

Tomorrow we'll be just fine
But let's not waste tonight

Roll over, baby, don't be upset
How can you fall asleep when you feel like this?
So, come on, baby, let me hold you instead
Meet me halfway from your side of the bed
Roll over, baby
Roll over, baby

Just let me pour you a glass of wine
I'll sit right here, you can say what's on your mind
I know you know I'm on your team
You tell me I got work to do, and I agree

Tomorrow we'll be just fine
But I want you tonight

Roll over, baby, don't be upset
How can you fall asleep when you feel like this?
So, come on, baby, let me hold you instead
Meet me halfway from your side of the bed
Roll over, baby
Roll over, baby
Roll over, baby

Come on, meet me halfway
From your side of the bed
Come on, meet me halfway
Let me hold you instead
Come on, meet me halfway
From your side of the bed
Come on, meet me halfway
Let me hold you instead

Roll over, baby, don't be upset
How can you fall asleep when you feel like this?
So, come on, baby, let me hold you instead
Meet me halfway from your side of the bed
Roll over, baby

Come on, meet me halfway
From your side of the bed (Roll over, baby)
Come on, meet me halfway
Let me hold you instead (Roll over, baby)
Come on, meet me halfway
From your side of the bed (Roll over, baby)
Come on, meet me halfway
Let me hold you instead
