

## Sad

LANY

You cut your hair, you dried your tears  
You look happier than ever  
And I hear he's nice and treats you well  
I wish that I had loved you better

'Cause it feels like I'll never get over you  
And I don't know what I'm supposed to do

So, I stay out late with all your friends  
And I get so drunk that I pretend  
That I don't miss all the good things that we had

'Cause I heard you found somebody else  
And it breaks my heart and hurts like hell  
'Cause I know that I will never get you back

Wish that I could make you sad  
Wish that I could make you sad

I kissed someone in front of you  
Just to try to make you jealous  
But you don't care, you don't cry  
And there's nothin' I can do to change your mind

So, I stay out late with all your friends  
And I get so drunk that I pretend  
That I don't miss all the good things that we had

'Cause I heard you found somebody else  
And it breaks my heart and hurts like hell  
'Cause I know that I will never get you back

Wish that I could make you sad  
Wish that I could make you sad

And I can't believe  
What I'm goin' through  
I hate myself for losin' you

So, I stay out late with all your friends  
And I get so drunk that I pretend  
That I don't miss all the good things that we had

'Cause I heard you found somebody else  
And it breaks my heart and hurts like hell  
'Cause I know that I will never get you back

Wish that I could make you sad  
Wish that I could make you sad  
Wish that I could make you  
Wish that I could make you sad
