

Stupid Feelings

LANY

So tired of adrenaline
Fake love on the internet why
Do I always come back again?
Every time I'm feeling low
Why do I self-medicate?
Drunk texts that I can't take back
Yeah, my heart's seen better days
But I call back anyway

I don't know how to fall for somebody else
I wanna be what you need
I've got all my emotions stuck on the shelf
It's like I'm losing a part of me

For you it's easy to hurt my stupid feelings
But when you keep on leaving
Don't tell me everything is said and done
'Cause I hate it, lonely is overrated
I'm over feeling faded
So sick of falling in and out of love

Falling in and out of love
Falling in and out of love

I wish I could let you know
Every time that I wanna go out
Always end up staying at home
Girl, I got you on my mind
And I wish I could change it
Getting used to the wasted nights
Yeah, my heart's seen better days
But you broke it anyway

I don't know how to fall for somebody else
I wanna be what you need
I've got all my emotions stuck on the shelf
It's like I'm losing a part of me

For you it's easy to hurt my stupid feelings
But when you keep on leaving
Don't tell me everything is said and done
'Cause I hate it, lonely is overrated
I'm over feeling faded
So sick of falling in and out of love

Falling in and out of love
Falling in and out of love

I don't know how to fall for somebody else
I wanna be what you need
I've got all my emotions stuck on the shelf
It's like I'm losing a part of me

For you it's easy to hurt my stupid feelings
But when you keep on leaving
Don't tell me everything is said and done
'Cause I hate it, lonely is overrated

I'm over feeling faded
So sick of falling in and out of love
